# Retractable Screen Solutions

Innovative  
screens  
for modern  
Australian living

- Designed for french, bi-fold, and stacking doors, windows, and difficult to screen openings.
- Featuring the unique patented Freedom Brake System™, allowing you to stop the screen at any point along the track.

1300 S<sup>7</sup>C<sup>2</sup>R<sup>7</sup>E<sup>3</sup>E<sup>3</sup>N<sup>6</sup>

## Engineered to last

Backed by a lifetime warranty<sup>Δ</sup>, Freedom Retractable Screens' premium product line is made to endure the most testing weather conditions over the long-term.

The patented self-locking brake, unique to Freedom Screens, allows you to fix the screen in any position along its track. The brake also protects against damage, preventing the screen from springing back into its' housing, ensuring a long life.

## Available in a variety of finishes

The durable frame is available in the full Dulux Powder Coat colour range. The colour options available ensure an ideal match against your existing timber or aluminium frame.
